

§ 2001.25

as sufficient grounds to support a waiver.

(2) Any approved portion marking waiver will be temporary with specific expiration dates.

(3) Requests for portion marking waivers from elements of the Intelligence Community (to include pertinent elements of the Department of Defense) should include a statement of support from the Director of National Intelligence or his or her designee. Requests for portion marking waivers from elements of the Department of Defense (to include pertinent elements of the Intelligence Community) should include a statement of support from the Secretary of Defense or his or her designee. Requests for portion marking waivers from elements of the Department of Homeland Security should include a statement of support from the Secretary of Homeland Security or his or her designee.

(4) A document not portion marked, based on an ISOO-approved waiver, must contain a warning statement that it may not be used as a source for derivative classification.

(5) If a classified document that is not portion marked, based on an ISOO-approved waiver, is transmitted outside the originating organization, the document must be portion marked unless otherwise explicitly provided in the waiver approval.

(1) *Marking information that has been reclassified.* Specific information may only be reclassified if all the conditions of section 1.7(d) of the Order and its implementing directives have been met.

(1) When taking this action, an original classification authority must include the following markings on the information:

- (i) The level of classification;
- (ii) The identity, by name and position, or by personal identifier of the original classification authority;
- (iii) Declassification instructions;
- (iv) A concise reason for classification, including reference to the applicable classification category from section 1.4 of the Order; and
- (v) The date the reclassification action was taken.

(2) The original classification authority shall notify all known authorized holders of this action.

32 CFR Ch. XX (7–1–22 Edition)

(m) *Marking of electronic storage media.* Classified computer media such as USB sticks, hard drives, CD ROMs, and diskettes shall be marked to indicate the highest overall classification of the information contained within the media.

§ 2001.25 Declassification markings.

(a) *General.* A uniform security classification system requires that standard markings be applied to declassified information. Except in extraordinary circumstances, or as approved by the Director of ISOO, the marking of declassified information shall not deviate from the following prescribed formats. If declassification markings cannot be affixed to specific information or materials, the originator shall provide holders or recipients of the information with written instructions for marking the information. Markings shall be uniformly and conspicuously applied to leave no doubt about the declassified status of the information and who authorized the declassification.

(b) The following markings shall be applied to records, or copies of records, regardless of media:

- (1) The word, “Declassified;”
- (2) The identity of the declassification authority, by name and position, or by personal identifier, or the title and date of the declassification guide. If the identity of the declassification authority must be protected, a personal identifier may be used or the information may be retained in agency files.
- (3) The date of declassification; and
- (4) The overall classification markings that appear on the cover page or first page shall be lined with an “X” or straight line. An example might appear as:

SECRET

Declassified by David Smith, Chief, Division
5, August 17, 2008

§ 2001.26 Automatic declassification exemption markings.

(a) *Marking information exempted from automatic declassification at 25 years.* (1) When the Panel has approved an agency proposal to exempt permanently valuable information from automatic

declassification at 25 years, the “Declassify On” line shall be revised to include the symbol “25X” plus the number(s) that corresponds to the category(ies) in section 3.3(b) of the Order. Except for when the exemption pertains to information that should clearly and demonstrably be expected to reveal the identity of a confidential human source, or a human intelligence source, or key design concepts of weapons of mass destruction, the revised “Declassify On” line shall also include the new date for declassification as approved by the Panel, not to exceed 50 years from the date of origin of the record. Records that contain information, the release of which should clearly and demonstrably be expected to reveal the identity of a confidential human source or a human intelligence source, or key design concepts of weapons of mass destruction, are exempt from automatic declassification at 50 years.

(2) The pertinent exemptions, using the language of section 3.3(b) of the Order, are:

25X1: reveal the identity of a confidential human source, a human intelligence source, a relationship with an intelligence or security service of a foreign government or international organization, or a non-human intelligence source; or impair the effectiveness of an intelligence method currently in use, available for use, or under development.

25X2: reveal information that would assist in the development, production, or use of weapons of mass destruction;

25X3: reveal information that would impair U.S. cryptologic systems or activities;

25X4: reveal information that would impair the application of state-of-the-art technology within a U.S. weapon system;

25X5: reveal formally named or numbered U.S. military war plans that remain in effect, or reveal operational or tactical elements of prior plans that are contained in such active plans;

25X6: reveal information, including foreign government information, that would cause serious harm to relations between the United States and a foreign government, or to ongoing diplomatic activities of the United States;

25X7: reveal information that would impair the current ability of United States Government officials to protect the President, Vice President, and other protectees for whom protection services, in the interest of the national security, are authorized;

25X8: reveal information that would seriously impair current national security emer-

gency preparedness plans or reveal current vulnerabilities of systems, installations, or infrastructures relating to the national security; or

25X9: violate a statute, treaty, or international agreement that does not permit the automatic or unilateral declassification of information at 25 years.

(3) The pertinent portion of the marking would appear as:

Declassify On: 25X4, 20501001

(4) Documents should not be marked with a “25X” marking until the agency has been informed that the Panel concurs with the proposed exemption.

(5) Agencies need not apply a “25X” marking to individual documents contained in a file series exempted from automatic declassification under section 3.3(c) of the Order until the individual document is removed from the file and may only apply such a marking as approved by the Panel under section 3.3(j) of the Order.

(6) Information containing foreign government information will be marked with a date in the “Declassify On” line that is no more than 25 years from the date of the document unless the originating agency has applied for and received Panel approval to exempt foreign government information from declassification at 25 years. Upon receipt of Panel approval, the agency may use either the 25X6 or 25X9 exemption markings, as appropriate, in the “Declassify On” followed by a date that has also been approved by the Panel. An example might appear as: 25X6, 20600129, or 25X9, 20600627. The marking “subject to treaty or international agreement” is not to be used at any time.

(b) *Marking information exempted from automatic declassification at 50 years.* Records exempted from automatic declassification at 50 years shall be automatically declassified on December 31 of a year that is no more than 75 years from the date of origin unless an agency head, within five years of that date, proposes to exempt specific information from declassification at 75 years and the proposal is formally approved by the Panel.

(1) When the information clearly and demonstrably could be expected to reveal the identity of a confidential human source or a human intelligence

§ 2001.30

source, the marking shall be “50X1-HUM.”

(2) When the information clearly and demonstrably could reveal key design concepts of weapons of mass destruction, the marking shall be “50X2-WMD.”

(3) In extraordinary cases in which the Panel has approved an exemption from declassification at 50 years under section 3.3(h) of the Order, the same procedures as those under § 2001.26(a) will be followed with the exception that the number “50” will be used in place of the “25.”

(4) Requests for exemption from automatic declassification at 50 years from elements of the Intelligence Community (to include pertinent elements of the Department of Defense) should include a statement of support from the Director of National Intelligence or his or her designee. Requests for automatic declassification exemptions from elements of the Department of Defense (to include pertinent elements of the Intelligence community) should include a statement of support from the Secretary of Defense or his or her designee. Requests for automatic declassification exemptions from elements of the Department of Homeland Security should include a statement of support from the Secretary of the Department of Homeland Security or his or her designee.

(c) *Marking information exempted from automatic declassification at 75 years.* Records exempted from automatic declassification at 75 years shall be automatically declassified on December 31 of the year that has been formally approved by the Panel.

(1) Information approved by the Panel as exempt from automatic declassification at 75 years shall be marked “75X” with the appropriate automatic declassification exemption category number followed by the approved declassification date or event.

(2) Requests for exemption from automatic declassification at 75 years from elements of the Intelligence Community (to include pertinent elements of the Department of Defense) should include a statement of support from the Director of National Intelligence or his or her designee. Requests for automatic declassification exemptions from

32 CFR Ch. XX (7–1–22 Edition)

elements of the Department of Defense (to include pertinent elements of the Intelligence community) should include a statement of support from the Secretary of Defense or his or her designee.

Subpart D—Declassification

§ 2001.30 Automatic declassification.

(a) *General.* All departments and agencies that have original classification authority or previously had original classification authority, or maintain records determined to be permanently valuable that contain classified national security information, shall comply with the automatic declassification provisions of the Order. All agencies with original classification authority shall cooperate with NARA in managing automatic declassification of accessioned Federal records, presidential papers and records, and donated historical materials under the control of the Archivist.

(b) *Presidential papers, materials, and records.* The Archivist shall establish procedures for the declassification of presidential, vice-presidential, or White House materials transferred to the legal custody of NARA or maintained in the presidential libraries.

(c) *Classified information in the custody of contractors, licensees, certificate holders, or grantees.* Pursuant to the provisions of the National Industrial Security Program, agencies must provide security classification/declassification guidance to such entities or individuals who possess classified information. Agencies must also determine if classified Federal records are held by such entities or individuals, and if so, whether they are permanent records of historical value and thus subject to section 3.3 of the Order. Until such a determination has been made by an appropriate agency official, such records shall not be subject to automatic declassification, or destroyed, and shall be safeguarded in accordance with the most recent security classification/declassification guidance provided by the agency.

(d) *Transferred information.* In the case of classified information transferred in conjunction with a transfer of functions, and not merely for storage,
